

**Mission Statement**  
**The Antique Jewelry and Art Conference, Inc.**  
**Jewelry Camp©**

The goal of Jewelry Camp is to function as an educational tool to promote knowledge in antique and estate jewelry not only to the jewelry industry and collectors but also to the public. It is our aim to create a community for networking to aid in the dissemination of knowledge.

In this fast paced world, it is important to rely on each other for education, support as well as networking. We must take the time to help as well as learn from each other.
